

## RATING ACTION COMMENTARY

# Fitch Affirms Together at 'BB-'; Outlook Negative

Mon 30 Nov, 2020 - 2:52 PM ET

Fitch Ratings - London - 30 Nov 2020: Fitch Ratings has affirmed Together Financial Services Limited's Long-Term Issuer Default Ratings at 'BB-', Short-Term IDR at 'B', and the senior secured notes issued by subsidiary Jerrold FinCo Plc (FinCo) and guaranteed by Together at 'BB-'.

Fitch has also affirmed the senior PIK toggle notes issued by Together's indirect holding company Bracken Midco1 PLC (Midco1) at 'B'.

The Negative Outlook reflects Fitch's view that while Together maintains a degree of headroom relative to its rating level, it remains sensitive to the ongoing weak credit environment, which could pressure its financial profile, in particular, asset quality, profitability and funding and liquidity.

## KEY RATING DRIVERS

### TOGETHER - IDRS AND SENIOR DEBT

Together's IDR is underpinned by its long-established franchise in providing secured credit to under-served borrowers, sound risk controls, generally healthy profitability and an increasingly diversified, albeit largely secured, funding profile. This mitigates the inherent

risk involved in lending to a niche sector of non-standard UK borrowers and the associated funding and leverage needs.

Together is a privately-owned business and has a robust franchise, having been in operation for over 46 years as a provider of lending products to predominantly non-standard borrowers. It benefits from strong business relationships, for example, with brokers and mortgage packagers, which have proved vital for Together's ability to increase origination of specialist loans. The business is split between the regulated Personal Finance division and the unregulated Consumer and Commercial Finance division and products offered range from first- and second-charge mortgages, buy-to-let mortgages, bridging loans, commercial term loans and development finance. In the context of the overall UK mortgage market, Together's franchise is moderate.

Loans are secured on UK property with fairly conservative loan-to-value (LTV) ratios of generally below 60% at origination, which mitigates the riskier lending profile.

Underwriting is of a more bespoke nature than mainstream mortgage providers and Together enhanced its processes and tightened lending criteria in 2020 as a result of the volatile economic climate.

The impact of the pandemic has led to Together's non-performing loan ratio (defined by IFRS 9 stage 3 loans/gross loans) deteriorating and at end-1Q21 (end-September 2020) it was 13.4% (FY20: 11.6%, FY19: 8.4%). Positively, customers who took out mortgage payment deferrals earlier in the year have now largely resumed payments. However, non-performing loans could continue to rise in 2021 once government support measures are phased out and in line with forecast economic deterioration, but the overall impact on our asset quality assessment is partly mitigated by Together's generally sound LTV ratios.

Profitability, defined by pre-tax income/average assets, has declined significantly in 2020 (FY20: 2.3%, FY19: 3.8%) but remains robust, reflecting Together's higher risk profile. The 2020 decline was largely due to an increase in the IFRS9 impairment charge, which was driven by worsening macro-economic projections as well as deteriorating asset quality. Profitability in 2020 was also affected by a customer redress provision of GBP17 million. While improving macro conditions could reverse some of the impairment provision, loan book deterioration could be lagged and could necessitate higher provisions over the outlook period, with profitability sensitive to the impairment provision modelling assumptions.

Furthermore, net interest margins have been declining due to increased competition and the reduction of higher margin legacy loans and funding costs could increase in the short to

medium term. Positively, Together implemented a cost-saving exercise in 2020, which will generate around GBP9 million of cost savings per year.

Leverage, defined by gross debt to tangible equity, has remained relatively stable (FY20: 4.8x; FY19: 4.5x) and we do not expect a significant rise in 2021 as Together does not plan to grow the loan book at the same rate as recent years. When calculating Together's leverage, Fitch adds Midco1's debt to that on Together's own balance sheet, regarding it as effectively a contingent obligation of Together. Midco1 has no separate financial resources of its own with which to service it, and failure to do so would have considerable negative implications for Together's own creditworthiness. Profits are largely re-invested in the business and this somewhat mitigates the dependence on debt funding.

Together's funding profile is largely wholesale, via public and private securitisations, senior secured bonds issued by the financing arm Jerrold FinCo Plc, PIK notes issued by Bracken Midco 1 PLC as well as a revolving credit facility (RCF) of GBP71.9 million. Together has been diversifying its funding profile over recent years but the wholesale nature can leave it exposed to funding and liquidity risks in volatile markets.

In particular, the private securitisations contain a number of performance covenants and the senior secured bonds and RCF have maximum gearing ratios attached to them. In a worsening credit environment, these facility restrictions could limit funding availability. Positively, Together has been building up cash buffers by limiting the amount of new lending while generating a sound level of loan redemptions in line with pre-pandemic levels and unrestricted cash was GBP113 million for FY20 (FY19: GBP23 million). Together's total accessible liquidity, which includes liquidity that can be accessed from the private securitisations in exchange for eligible assets as well as RCF drawings, was around GBP270 million at end-October 2020. The debt profile is staggered, which mitigates some of the refinancing risk and Together has shown an ability to access the wholesale funding markets with a RMBS issuance in July 2020 and the re-financing of the RCF in September 2020.

#### MIDCO1 - SENIOR PIK TOGGLE NOTES

Midco1's debt rating is notched from Together's IDR as Midco1's debt is taken into account when assessing Together's leverage, and Midco1 is totally reliant on Together to service its obligations. The notching between Together's IDR and the rating of the senior PIK toggle notes reflects Fitch's view of the likely recoveries in the event of Midco1 defaulting. While sensitive to a number of assumptions, this scenario would only be likely to occur in a situation where Together was also in a much weakened financial condition, as otherwise its upstreaming of dividends for Midco1 debt service would have been maintained.

## **RATING SENSITIVITIES**

### **TOGETHER - IDRS AND SENIOR DEBT**

As reflected in the Negative Outlook, Together's IDR and debt ratings are primarily sensitive to the weak economic conditions leading to pressure on Together's asset quality, profitability or liquidity position.

Factors that could, individually or collectively, lead to positive rating action/upgrade:

-The Outlook on Together's Long-Term IDR and debt ratings could be revised to Stable if the group's liquidity position remains resilient and the downside risks emanating from the current operating environment begin to abate, assuming other financial metrics remain broadly unchanged (or improve).

-Contained increases in arrears and unchanged franchise strength while being able to maintain adequate earnings and leverage would also support a revision of the Outlook to Stable.

-In the medium term, an upgrade would require more stable economic conditions supported by evidence that Together's franchise and business model has remained robust, in addition to improving financial-profile metrics, notably asset quality and earnings and profitability.

Factors that could, individually or collectively, lead to negative rating action/downgrade:

-Material asset quality weakness feeding into liquidity pressures. This could arise from a significant decline in redemptions and repayments and/or material depletion of Together's immediately accessible liquidity buffer, for example if Together needs to swap eligible assets into the securitisation vehicles to cure covenant breaches driven by asset quality deterioration, then this could weaken its corporate liquidity.

- Evidence that Together's access to the wholesale funding market is restricted or on materially worse terms.

-Evidence that Together's franchise has become negatively affected by the decision to limit loan book growth.

-A material slowdown in Together's rate of internal capital generation, for example due to a deteriorating operating environment adversely affecting asset quality and leading to higher non-performing loan metrics, significant net interest margin erosion or property price declines leading to an inability to realise sufficient collateral values, could lead to a downgrade.

- Consolidated leverage materially increasing above 5x on a sustained basis, which could arise if further debt is drawn, tangible equity reduced and significant losses absorbed.

## MIDCO1 - SENIOR PIK TOGGLE NOTES

The rating of the senior PIK toggle notes is sensitive to changes in Together's IDR, from which it is notched, as well as to Fitch's assumptions regarding recoveries in a default. Lower asset encumbrance by senior secured creditors could lead to higher recovery assumptions and therefore narrower notching from Together's IDR. The notes would be sensitive to wider notching if they are further structurally subordinated by the introduction of more senior notes at Midco1 with similar recovery assumptions.

## BEST/WORST CASE RATING SCENARIO

International scale credit ratings of Financial Institutions and Covered Bond issuers have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of three notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of four notches over three years. The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAA' to 'D'. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit [<https://www.fitchratings.com/site/re/10111579>]

Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts,

including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed. The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not

intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.
