## Highlights

Together Financial Services Limited ('Together' or 'the Group'), one of the UK's leading specialist mortgage and secured loan providers, is pleased to announce its results for the year ended June 30, 2022.

### Commenting on today's results, Gerald Grimes, Group CEO Designate of Together, said:

"Together delivered another very strong performance in the year to 30 June as we capitalised on our diverse proposition to increase lending to a wide range of customers, growing our loan book to a new high of £5.3bn and achieving underlying profit before tax of £162.7m. This growth was achieved in a controlled and sustainable way, in line with our strategy and prudent risk appetite, with our loan book average LTV remaining at a very conservative 51.5% and our arrears consistently low.

"We continued to make great progress in implementing our strategic agenda to deliver transformational change, drive efficiency benefits to further enhance the experience for our customers and create an agile and rapidly scalable platform to set the business up for the next phase of its growth. This included expanding our channels to increase access to our markets to sustainably grow our lending, formalising our ESG strategy to help deliver our environmental and social responsibilities in line with our purpose and vision and empowering our colleagues to grow and deliver value to our stakeholders. To support our expected growth opportunities we also raised or refinanced over £4.1bn of facilities during the year.

"The UK's economic outlook has become more uncertain as global supply chain disruption and rising inflation have led to a tightening of monetary policy and increasing interest rates. As a result of these headwinds many more customers may find themselves underserved by mainstream lenders and look to specialist lenders to help them to solve problems and realise opportunities. With a multi-cycle track record, a clear purpose, our transformation programmes well underway and strong diversified funding in place, Together remains well placed to help increasing numbers of customers realise their ambitions and to play our part in supporting the UK economy."

### Financial highlights: year ended June 30, 2022

- Record originations driving strong loan book growth
  - Average monthly loan originations of £226.8m, up 132.5% (2021: £97.6m)
    - Weighted average origination LTVs remain conservative at 61.0% (2021: 59.8%)
    - New lending exceeded £300m in May (£300.1m) and June (£304.1m)
  - Group net loan book increased 30.8% to £5.2bn (2021: £4.0bn)
    - Weighted average indexed LTV remains very conservative at 51.5% (2021: 52.1%)
    - Impairment coverages remain very low at 1.6% (2021: 2.5%) reflecting quality of loan portfolio
- Another robust financial performance
  - Interest receivable and similar income up 6.1% at £393.4m (2021: £370.9m)
  - Underlying net interest margin remains attractive at 5.5% (2021: 6.2%), with compression during the year reflecting a change in product mix and the impact of the extent and timing of rising interest rates
  - Annualised cost of risk has decreased to 0.1% (2021: 0.4%) due to a reduced impairment charge during the year.
  - Underlying profit before tax was up 8.7% to £162.7m (2021: £149.7m)

Cash generation remains robust, with cash receipts of £1.9bn (2021: £1.7bn) as redemption levels remained strong

## Highlights (continued)

Key metrics	2022	2021
Interest receivable and similar income (£m)	393.4	370.9
Underlying interest cover ratio <sup>1</sup>	2.2:1	2.3:1
Interest cover ratio	2.1:1	2.3:1
Underlying net interest margin <sup>2</sup> (%)	5.5	6.2
Net interest margin (%)	5.5	6.1
Underlying cost-to-income ratio <sup>1</sup> (%)	35.1	35.9
Cost-to-income ratio (%)	39.4	34.1
Cost of risk (%)	0.1	0.4
Underlying profit before taxation <sup>1</sup> (£m)	162.7	149.7
Profit before taxation (£m)	151.5	150.3

### Operational highlights

- Shaping our business for an exciting future
  - Strong progress in embedding and bringing our new purpose to life across Together
  - Successfully revised and expanded our sales channels to increase our addressable market to sustainably grow lending
  - Continued to implement our transformational change agenda with focus on:
    - Delivering the right experience for our customers by transforming the application journey and allowing colleagues to refocus where they can best utilise their experience and expertise
    - Enabling a scalable cost base to allow Together to enter new markets with different price points, complementing our already-established service, speed and distinctive product offering
    - Building our capacity to increase agility and flexibility to reduce the time from idea to implementation and remove barriers to scalability
  - Launched new corporate website providing a new and improved online customer journey
- Formalising our approach to sustainability
  - Developed a comprehensive ESG strategy that builds on our ongoing work and recognises the overarching importance of our environmental and social responsibilities in line with our purpose and vision
    - Identified targets and measures for four key priority areas; our planet, our customers, our colleagues and our community, which are all underpinned by strong governance
    - Devised a Diversity and Inclusion strategy, committing to targets focused on gender, age, ethnicity and disability by 2026
    - Published our first Sustainability Report setting out our approach to sustainability

<sup>1</sup> June 30, 2022 excluded £1.2m customer redress provision release, £7.9m costs associated with a strategic review of the business and a £4.5m share-based payment charge whilst June 30, 2021 excluded £8.2m customer redress provision release, £1.7m redundancy costs and £5.9m interest payable relating to the refinance of the 2024 SSN.

<sup>2</sup> There are no exceptional items impacting upon net interest income recorded in the current year to June 30 2022 however in the prior year to June 30 2021, net interest income excluded £5.9m costs associated with the refinancing of the 2024 SSN.

<sup>3</sup> Includes subordinated shareholder loans of £31.4m (2021: £29.3m)

<sup>4</sup> Net loan book is the net of gross loans and advances to customers and impairment allowances

## Highlights (continued)

### Funding highlights

- Significantly increased the scale, diversity and maturity of our funding
  - Successfully raised or refinanced £4.1bn of facilities across 9 transactions to support the Group's growth ambitions:
    - Jul'21: launched £96.2m BABS, our first dedicated facility for non-performing loans;
    - Sep'21: refinanced £525m HABS small balance commercial real estate warehouse facility extending maturity to September 2025;
    - Sep'21: issued inaugural 1st charge only RMBS, TABS 5, for £318m;
    - Nov'21: issued additional £120 million in aggregate principal amount of 4 7/8% Senior Secured Notes due 2026 at issue price of 100.5%, upsized in market from £100 million;
    - Dec'21: Delta ABS 2 upsized from £200m to £400m;
    - Mar'22: £1.25bn CABS facility refinanced as CABS 2, extending maturity from Sep '23 to Mar '27 with significantly improved commercial terms;
    - Apr'22: refinanced LABS securitisation, upsizing facility from £500m to £700m with improved commercial terms and maturity extended from Oct '23 to Apr '26;
    - May'22: issued our £349m inaugural second charge-only RMBS;and
    - Jun'22: issued third public small balance commercial real estate, CRE 3, for £365.2m.
  - Additionally, in Nov'21 Bracken Midco1 PLC successfully issued £380m 2027 Senior PIK Toggle Notes as part of the refinancing of its existing £368.2 million aggregate principal amount of Senior PIK Toggle Notes due 2023, reducing cash coupon from 8.875% to 6.75%.
  - Maintained fund raising and refinancing momentum post year end:
    - Jul'22: issued £499.4m TABS 7, our largest ever RMBS
    - Sep'22: amended and restated BABS facility, adding an additional £24m of funding and extending maturity to Mar' 27
    - Sep'22: Upsized our revolving credit facility from £71.9m to £138.25m, extending maturity to Sep'26
  - Facility Headroom of £1.4bn at June 30, 2022 (June 30, 2021: £1.4bn) and accessible liquidity of £406.9m at June 30, 2022 (June 30, 2021: £453.0m).
  - Weighted average maturity of the Group's funding profile was 3.9 years as at June 30, 2022 based on amounts drawn.
- Positive actions taken have resulted in improved corporate credit ratings
  - Oct '21: Outlook revised from negative to stable by Fitch
  - Jan '22: Outlook revised from stable to positive by S&P

## An introduction to Together Financial Services Limited

One of the UK's leading specialist mortgage and secured loans providers, Together has successfully operated through several economic cycles since it was established in 1974. We pride ourselves on bringing common sense to lending by helping individuals, families, property investors and small- and medium-sized enterprises ("SMEs") to achieve their ambitions.

We focus on conservative loan-to-value ("LTV") lending and offer retail and commercial purpose mortgage loans to market segments in which customers are generally underserved by mainstream lenders. Our loans include secured first and second-lien loans, of which, as of June 30, 2022, 62.8% were secured by residential properties, with the balance secured by commercial and semi-commercial properties, all within the United Kingdom. We differentiate ourselves by offering flexible lending criteria, responding quickly to our customers' needs and underwriting each application on its individual merits, supported by an effective service proposition, thereby minimising the effect of competition. We offer our loans through one, consistent brand - 'Together' - and distribute them primarily through mortgage intermediaries, our professional network, auction houses, and through our direct sales channels, each across mainland United Kingdom. We underwrite and service all our mortgage loans directly.

As of June 30, 2022, 24.1% of our loan portfolio was classified as retail purpose and 75.9% as commercial purpose (which included 28.0% of buy to let + and 3.8% of development loans), calculated by value. We classify mortgages as retail purpose lending when the mortgage is regulated by the Financial Conduct Authority ("FCA"). Retail purpose loans include loans for purchasing a new home, making home improvements, debt consolidation, large personal purchases and since March 2016 also includes "consumer buy-to-let" loans ("CBTL"). Our retail purpose loans also include regulated bridging loans, which can be used for 'chain breaks' and which are loans used by customers to purchase a new home ahead of completing the sale of their existing home, amongst other things. We classify mortgages as "commercial purpose" where a loan is not defined as retail purpose. Commercial-purpose loans include loans on which the proceeds of the loan or the property securing the loan are used for business purposes. Our classification of a mortgage as either retail or commercial purpose is unrelated to the collateral securing it.

Our underwriting process consists of a detailed and individualised credit, affordability and/or repayment assessment, as well as a security assessment which typically includes an independent valuation, which we believe provides us with a thorough understanding of each loan application. In the underwriting process we primarily focus on affordability, being the ability of the loan applicant to make loan payments in line with

agreed terms, and the repayment strategy, where the loan will not be repaid from instalments, and security, being the adequacy of the property which will serve as security for the loan. To support compliance with our underwriting guidelines, we have in place mandate and authorisation controls, a staff training and competency program and quality assurance sampling procedures. This is supported by a formal enterprise risk management framework, which includes a formal committee structure to agree on policy decisions, setting risk appetites and monitoring credit quality and by second and third line oversight, including by risk, compliance and internal audit teams. Additionally, external loan asset audits have been conducted at least annually, pursuant to the terms of certain of our financing arrangements.

Gross loan origination volumes have continued to grow consistently, reaching record levels of over £300m in each of May and June and taking the loan book to a new high of £5.3bn at 30 June 2022.

The LTVs of our loan portfolio on a weighted average indexed basis as of June 30, 2022, was 51.5% and the LTV on a weighted-average basis of new loans underwritten in the year ended June 30, 2022 was 61.0%. As of June 30, 2022, 97.8% of the total loan portfolio, calculated by value, consisted of loans with indexed LTVs equal to or less than 80%. This fundamental, long-standing principle of lending at conservative LTV levels, has provided us with significant protection in times of falling property prices and economic downturns, thereby mitigating our levels of credit risk.

## Presentation of financial and other information

### Financial statements

This report presents the annual statutory financial statements of Together Financial Services Limited as of and for the twelve months ended June 30, 2022 with comparatives to June 30, 2021. The annual statutory financial statements of Together Financial Services Limited have been prepared in accordance with international accounting standards in conformity with the requirements of the Companies Act 2006.

We have not included financial information prepared in accordance with FRS 102 or US GAAP. International accounting standards (IFRS) differs in certain significant respects from FRS 102 and US GAAP. You should consult your own professional advisors for an understanding of the differences between IFRS, FRS 102 and US GAAP and how those differences could affect the financial information contained in this annual report.

Charles Street Conduit Asset Backed Securitisation 2 Limited ("Charles Street ABS 2" or "CABS 2"), Lakeside Asset Backed Securitisation 1 Limited ("Lakeside ABS" or "LABS"), Highfield Asset Backed Securitisation 1 Limited ("Highfield ABS" or "HABS"), Delta Asset Backed Securitisation 2 Limited ("Delta ABS 2" or "DABS"), Together Asset Backed Securitisation 1 PLC ("Together ABS 1" or "TABS 1"), Together Asset Backed Securitisation 2018-1 PLC ("Together ABS 2" or "TABS 2"), Together Asset Backed Securitisation 2019 – 1 PLC ("Together ABS 3" or "TABS 3"), Together Asset Backed Securitisation 2020 – 1 PLC ("Together ABS 4" or "TABS 4"), Together Asset Backed Securitisation Together Asset Backed Securitisation 2021–CRE1 PLC ("Together ABS CRE 1" or "CRE 1"), Together Asset Backed Securitisation 2021-CRE2 PLC ("Together ABS CRE 2" or "CRE 2"), Together Asset Backed Securitisation 2022-CRE1 plc ("Together ABS CRE 3" or "CRE 3"), Brooks Asset Backed Securitisation 1 Limited ("Brooks ABS" or "BABS"), Together Asset Backed Securitisation 2021-1ST1 PLC RMBS ("Together ABS 1ST1" or "TABS 5"), Together Asset Backed Securitisation 2022-2ND1 PLC RMBS ("Together ABS 2ND1" or "TABS 6"), the bankruptcy-remote special purpose vehicles established for purposes of secured borrowings, are consolidated into our annual statutory financial statements in accordance with IFRS 10 Consolidated Financial Statements. Mortgage loans sold to Charles Street ABS 2, Lakeside ABS, Highfield ABS, Delta ABS 2, Together ABS 2, Together ABS 3, Together ABS 4, Together ABS CRE 1, Together ABS CRE 2, Together ABS CRE 3, Brooks ABS, Together ABS 1ST1 and Together ABS 2ND1 are maintained on the

consolidated statement of financial position as assets, within loans and advances to customers and the associated interest receivable credited to the consolidated income statement. The loan notes issued by Charles Street ABS 2, Lakeside ABS, Highfield ABS, Delta ABS 2, Together ABS 2, Together ABS 3, Together ABS 4, Together ABS CRE 1, Together ABS CRE 2, Together ABS CRE 3, Brooks ABS, Together ABS 1ST1 and Together ABS 2ND1 to certain lenders, to finance the purchase of the mortgage loans and any interest and fees accrued on the loan notes but not yet paid in respect thereof, are maintained on the consolidated statement of financial position as liabilities due to creditors with interest and debt issuance costs amortised through the income statement.

### Other financial information (Non-IFRS)

All key performance measures shown in this document are calculated using underlying figures, not the rounded figures used for presentation in this report.

We have included in this report and related presentation, certain financial measures and ratios, including EBITDA, Underlying EBITDA, EBITDA margin, Underlying EBITDA margin, Underlying profit before taxation, Net interest margin, Underlying net interest margin, Return on equity, Underlying return on equity, Cost-to-income ratio, Underlying cost-to-income ratio and certain leverage and coverage ratios that are not presented in accordance with IFRS.

In this annual report and related presentation, references to EBITDA for the years ended June 30, 2021 and 2022 for Together Financial Services Limited, can be extracted from the annual statutory financial statements of Together Financial Services Limited, by taking profit after taxation and adding back income tax, depreciation and amortisation and interest payable and similar charges.

In this annual report references to "Underlying EBITDA", "Underlying Profit Before Tax", "Underlying net interest margin", Underlying return on equity and "Underlying cost-to-income ratio" exclude the effects of certain non-recurring items. For the year ended June 30, 2022 this excluded £0.1m customer redress provision charge, a £4.5m share based payment charge, £7.9m costs incurred as part of the ongoing review of strategic options for the business and releases of £1.2m customer redress provisions. For the year ended 30 June, 2021 this excluded £8.2m customer redress provision release, £1.7m redundancy costs and £5.9m interest expense

## Presentation of financial and other information (continued)

### Other financial information (Non-IFRS) (continued)

related to the refinance of the 2024 Senior Secured Notes.

In this annual report references to “EBITDA margin” reflects EBITDA margin for Together Financial Services. EBITDA margin is calculated as EBITDA divided by the sum of interest receivable and similar income plus fee and commission income (derived from the Company’s consolidated financial statements).

In this annual report references to “Underlying EBITDA margin” reflects Underlying EBITDA margin for Together Financial Services. Underlying EBITDA margin is Underlying EBITDA divided by the sum of interest receivable and similar income and fee and commission income (derived from the Company’s consolidated financial statements excluding the effects of exceptional items<sup>4</sup>).

In this annual report references to “Net interest margin” reflects the net interest margin for Together Financial Services. Net interest margin is calculated by dividing net interest income (derived from the Company’s consolidated financial statements) for the year, divided by the average total loan assets.

In this annual report references to “Underlying net interest margin” reflects the Underlying net interest margin for Together Financial Services. Underlying net interest margin is calculated by dividing underlying net interest income (derived from the Company’s consolidated financial statements excluding exceptional items<sup>5</sup>) for the year, divided by the average total loan assets.

In this annual report references to “Return on equity” reflects the return on equity for Together Financial Services. Return on equity is calculated as profit after taxation (derived from the Company’s consolidated financial statements), adding back shareholder loan interest net of associated tax calculated using the effective tax rate, expressed as a percentage of the average of the opening and closing shareholder funds.

In this annual report references to “Underlying return on equity” reflects the Underlying return on equity for Together Financial Services. Return on equity is calculated as underlying profit after taxation (derived

from the Company’s consolidated financial statements excluding exceptional items<sup>6</sup>), adding back shareholder loan interest net of associated tax calculated using the effective tax rate, expressed as a percentage of the average of the opening and closing shareholder funds.

In this annual report references to “Cost-to-income ratio” reflects the Cost-to-income ratio for Together Financial Services. Cost-to-income ratio is calculated by dividing administration expenses for the year over net operating income (both derived from the Company’s consolidated financial statements for the year).

In this annual report references to “Underlying cost-to-income ratio” reflects the Underlying cost-to-income ratio for Together Financial Services. Underlying cost-to-income ratio is calculated by dividing underlying administration expenses (derived from the Company’s consolidated financial statements excluding the effects of exceptional items<sup>6</sup>) for the year over underlying net operating income (derived from the Company’s consolidated financial statements excluding the effects of exceptional items<sup>7</sup>) for the year.

We are not presenting EBITDA-based measures as measures of our results of operations. EBITDA-based measures have important limitations as an analytical tool, and should not be considered in isolation or as substitutes for analysis of the results of operations. Management believes that the presentation of EBITDA-based measures is helpful to investors, securities analysts and other parties to measure operating performance and ability to service debt. EBITDA-based measures may not be comparable to similarly titled measures used by other companies.

EBITDA, Underlying EBITDA, EBITDA margin, Underlying EBITDA margin, Underlying Profit Before Tax, Net interest margin, Underlying net interest margin, Return on equity, Underlying return on equity, Cost-to-income ratio, Underlying cost-to-income ratio and certain leverage and coverage ratios are not measurements of financial performance under IFRS and should not be considered as alternatives to other indicators of operating performance, cash flows or any other measure of performance derived in accordance with IFRS.

4 June 30, 2022 excluded £1.2m customer redress provision release, £7.9m costs associated with a strategic review of the business and a £4.5m share-based payment charge whilst June 30, 2021 excluded £8.2m customer redress provision release, £1.7m redundancy costs and £5.9m interest payable relating to the refinance of the 2024 SSN.

5 June 30, 2021 excluded £5.9m interest payable relating to the refinance of the 2024 SSN.

6 June 30, 2022 excluded £1.2m customer redress provision release, £7.9m costs associated with a strategic review of the business and a £4.5m share-based payment charge whilst June 30, 2021 excluded £8.2m customer redress provision release, £1.7m redundancy costs and £5.9m interest payable relating to the refinance of the 2024 SSN.

## Terms relating to our loan analysis

With the exception of the application of certain forbearance measures we do not reschedule our loans by capitalising arrears. In this annual report, arrears data is based on the latest contractual position and does not take into account either payment plans or agreed changes to payment dates, other than with respect to mortgage-payment deferrals for which the arrears calculation is described in further detail below. Arrears data is further subdivided into performing and non-performing arrears loans as described below.

The Group continues in its actions to serve its customers by continuing to support those customers through using our wider forbearance toolkit, and has taken steps to consider the impact of macroeconomic factors such as the rising cost of living, by amending affordability assessments.

Repossessed properties, Law of Property Act ("LPA") receivership in sale status ("LPA Sales") and development loans are excluded from arrears numbers. LPA receivership in rental status, loans which may return to being performing assets, are included in arrears numbers.

Repossessed properties are properties in respect of which a court order has been actioned by a charge holder to the security, or in respect of which the borrower has surrendered ownership of the property. An LPA receivership is typically used to exercise security over property that is used for commercial purposes, which enables us to sell the property ("sale status"), or divert income streams from properties directly to ourselves ("rental status") which may not lead to an eventual sale process if the borrower is able to recover their position.

Development loans are commercial-purpose loans that we extend to finance the development of land or property, primarily into residential units, with repayments typically being made out of the sale or refinance of property units. We underwrite relatively few new development loans each quarter. Development loans are reported as a separate category of loans within our analysis.

In this report and related presentation, data referring to loan portfolio analysis is in reference to core operating subsidiaries including Together Personal Finance Limited and Together Commercial Finance Limited, as well as the following subsidiaries which no longer originate new advances to customers: Auction Finance Limited, Blemain Finance Limited, Bridging Finance Limited and Harpmanor Limited. Data referring to our loan portfolio analysis is presented after allowances for impairment and include certain other accounting adjustments (including adjustments to recognise income at the effective interest rate).

In this report and related presentation, a loan is considered performing (a "performing loan") if it (i) has nil arrears or arrears less than or equal to one month of the latest contractual instalment or where no contractual monthly instalment is due, or (ii) "performing arrears loans," being loans with arrears greater than one month's but less than or equal to three months' of the latest contractual instalments, or where cash receipts collected in the prior three months are equal to or greater than 90% of the latest contractual instalments due in the prior three months. The balance of loans are classified as (a) development loans, (b) non-performing arrears loans, where such loans have arrears of greater than three months' of the latest contractual instalments due and where receipts collected in the prior three months are less than 90% of the three latest contractual instalments due, past contractual term or subject to LPA receivership in rental status and (c) loans for which the security is subject to a repossession order or for which an LPA receiver has been appointed and is under sale status. Such loan categorisation definitions used differ to the categorisations applied in determining if a loan is classified as Stage 1, Stage 2 and Stage 3 under IFRS 9.

In this report and related presentation, the term "performing loans" refers to the aggregate of (i) the principal amount of performing loans outstanding, (ii) accrued interest and fees, (iii) net of any allowances for impairment in respect of such loans, and (iv) certain other accounting adjustments (including adjustments to recognise income at the effective interest rate), as of the date presented. The term "non-performing arrears loans" refers to the aggregate of (i) the principal amount of non-performing arrears loans outstanding, (ii) accrued interest and fees, (iii) net of any allowances for impairment in respect of such loans and (iv) certain other accounting adjustments (including adjustments to recognise income at the effective interest rate), as of the date presented.

Non-performing arrears loans do not take into account loans for which the security is subject to a repossession order or for which an LPA receiver has been appointed and is under sale status, all of which are reported as separate categories and are also calculated based on the aggregate of (i) the principal amount, (ii) accrued interest and fees, (iii) net of any allowances for impairment in respect of such loans and (iv) include certain other accounting adjustments (including adjustments to recognise income at the effective interest rate) as of the date presented. Our loan and impairment allowance analysis excludes loans with carrying values of nil for which full provisions are in place.

## Terms relating to our loan analysis (continued)

In this report and related presentation, the term "total loan assets" refers to the total balance of loans provided to our customers as included within our statement of financial position, stated after allowances for impairment. In this report and related presentation, the term "second-lien loans" includes second-lien loans and also subsequent-lien loans.

With respect to originations, Loan-to-Value ratio ("LTV") is a ratio (reflected as a percentage) of (i) the principal amount of a mortgage loan on origination and (ii) any higher ranking charge mortgage loans secured on the same property compared to the appraised value (typically the assessed value of real property in the opinion of a qualified appraiser or valuer or from an automated valuation model during the mortgage origination process) of the property securing the loan.

In this report and related presentation, the average LTV on originations is calculated on a "weighted average basis," by multiplying each LTV by the respective principal loan amount and then dividing the sum of the weighted LTVs by the total amount of principal loans.

In respect to our loan portfolio the LTV ratio is a ratio (reflected as a percentage) of the aggregate of (i) the principal amount of a mortgage loan, (ii) any higher ranking charge mortgage loans secured on the same property, (iii) the accrued interest and fees thereon, (iv) net of allowances for impairments and v) certain other accounting adjustments (including adjustments to recognise income at the effective interest rate), compared to the appraised value (typically the assessed value of real property in the opinion of a qualified appraiser or valuer or from an automated valuation model during the mortgage origination process or the revised valuation of the property if a later valuation has been undertaken) of the property securing the loan.

In this report and related presentation, the average LTV of our loan portfolio is calculated on a "weighted average basis," by multiplying each LTV by the respective loan amount and then dividing the sum of the weighted LTVs by the total amount of loans. The weighted average LTV of our loan portfolio is also presented on an "indexed basis," pursuant to which the value of the properties securing our loans are reviewed annual and adjusted for movements in property prices since the latest appraised valuation in accordance with the relevant regional property indices.

With respect to data related to LTV in this annual report and related presentation, the LTV statistics are calculated per each loan on a standalone basis. In certain cases, there are multiple loans with a single borrower (or related borrowers) which are either secured on the same property or with cross security charges in place. If we were to present data related to LTV on a consolidated basis per each borrower or each property, LTV and related data would differ from the data presented herein in certain cases.

## Key performance indicators

The following table summarises key financial data and key performance indicators as of the dates and for the periods indicated.

12 months ended or as at June 30,

(£m, except for percentages and ratios or unless otherwise noted)	2022	2021
<b>Group</b>		
Interest receivable and similar income	393.4	370.9
Fee and commission income	5.2	4.2
<b>Income</b>	<b>398.6</b>	<b>375.1</b>
Net interest margin	5.5%	6.1%
Underlying net interest margin**	5.5%	6.2%
Cost-to-income	39.4%	34.1%
Underlying cost-to-income*	35.1%	35.9%
Impairment charge	4.3	16.1
EBITDA	295.3	279.1
Underlying EBITDA***	306.5	272.6
EBITDA margin	74.1%	74.4%
Underlying EBITDA margin***	76.9%	72.7%
Profit on ordinary activities before tax	151.5	150.3
Underlying profit on ordinary activities before tax*	162.7	149.7
Return on equity	12.9%	14.7%
Underlying return on equity*	13.8%	14.5%
Supplemental cash flow information:		
Cash receipts	1,906.4	1,687.4
New advances	2,721.9	1,170.8
LTV of loan originations (on a weighted average basis, based on LTV of loans at origination)	61.0%	59.8%
LTV of loan portfolio (on a weighted average indexed basis)	51.5%	52.1%

\* Underlying metrics include adjustments to exclude £1.2m customer redress provision release, a £4.5m share based payment charge and £7.9m costs associated with a strategic review of the business (2021: £8.2m customer redress provision release, £1.7m redundancy costs and £5.9m interest payable relating to the refinance of the 2024 SSN).

\*\* Underlying metrics include no adjustments in the current period (2021: £5.9m interest payable relating to the refinance of the 2024 SSN).

\*\*\* Underlying metrics include adjustments to exclude £1.2m customer redress provision release, a £4.5m share based payment charge and £7.9m costs associated with a strategic review of the business (2021: £8.2m customer redress provision release and £1.7m redundancy costs).

The key performance indicators above for the year ended June 30, 2022 have been derived from audited consolidated financial statements, which have been prepared in accordance with IFRS, and management information. In the opinion of management, such financial data reflects all adjustments necessary for a fair presentation of the results for those periods. The financial information should be read in conjunction with the audited annual report and consolidated financial statements of Together Financial Services Limited and the accounting policies described therein as at June 30, 2022.

## Operating review

The section below provides a more detailed overview of performance in relation to a number of key metrics that management uses when assessing the performance of the business.

### Continued focus on LTVs

During the year to June 30, 2022 the Group has continued to focus on prudent underwriting policies and LTVs. The Group continues to target an average of origination LTVs of between 55% and 65% for new

loans and continues to focus principally on residential security. The Group has continued to use affordability and repayment assessments to ensure customers are able to service and repay their loans, and has enhanced affordability assessments to reflect macroeconomic pressures and increases in the cost of living.

An analysis of the loan portfolio as at June 30, 2022, and June 30, 2021 by arrears banding, for the Group and Borrower Group is set out below:

	Group Loan Portfolio Arrears Analysis		Borrower Group Loan Portfolio Arrears Analysis	
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021

The indexed weighted-average LTV of the loan portfolio for the total Group at June 30, 2022 is 51.5% compared with the prior year of 52.1% at June 30, 2021.

The indexed weighted-average LTV of the loan portfolio for the Borrower Group at June 30, 2022 is 55.7% compared with the prior year of 55.9% at June 30, 2021.

## Operating review (continued)

### Maintenance of loan portfolio mix and continued differentiation of our offerings

We aim to maintain a diversified loan portfolio mix between retail purpose and commercial purpose lending and security types.

As of June 30, 2022, 24.1% of our loan portfolio was classified as retail purpose and 75.9% as commercial purpose (which included 28.0% of buy to let + and 3.8% of development loans), calculated by value. At June 30, 2021, 26.2% of our loan portfolio was classified as retail purpose, 73.8% of our loan portfolio was classified as commercial purpose (which included 26.9% of but to let + and 4.0% of development loans).

The proportion of our loan portfolio secured by residential security by value has reduced to 62.8% as at June 30, 2022 when compared with 63.6% at June 30, 2021.

The proportion of our loan portfolio secured on first charges has increased to 81.3% as at June 30, 2022, when compared with 75.5% as at June 30, 2021.

### Controlled origination growth

In the year to June 30, 2022, including further advances, we have originated an average of £226.8m per month, a considerable increase compared with £97.6m per month in the year to June 30, 2021 which was intentionally subdued due to Covid-19. This increase remains in line with our strategic aims to grow new lending responsibly and in a controlled manner.

Our loans and advances to customers stands at £5,247.9m as at June 30, 2022, compared with £4,011.9m as at June 30, 2021.

We continue to offer a broad range of products to underserved segments of the secured mortgage market and we benefit from a rich pool of experienced skilled underwriters supported by our continued investment in technology and product innovation.

## Financial review

Interest receivable and similar income grew by 6.1% to £393.4m for the year to June 30, 2022 compared with £370.9m in the year to June 30, 2021. This reflects the growth in the loan book, lower yielding product mix, and in the latter part of the year, the passing on of interest-rate increases to new and existing loans.

Interest payable and similar charges have increased by 12.2% to £138.6m for the year to June 30, 2022 compared with £123.5m in the year to June 30, 2021. This is primarily driven by the substantially higher interest rate environment, which increases reference rates on our variable funding facilities, and by higher borrowing, in support of the growth in the Group's loan book.

There has been a decrease in underlying net interest margin from 6.2% in the prior year to June 30, 2021 to 5.5% in the year to June 30, 2022, when calculated using our stated methodology. The fall in net interest income mainly arose from a reduction in interest income as a percentage of loans due to the changing product mix and increases in interest payable due to increases in reference rates and higher levels of leverage. The Group has taken steps to help mitigate the impact of the rising interest rates on our margins achieved, through passing on increases in interest rates to our existing variable rate loans as considered appropriate, and through actively reviewing the pricing of new lending. There is a natural lag between such interest rate increases and our ability to pass these on to both existing and new customers to cater for governance, processes, pipeline and notice periods.

The cost-to-income ratio for the year to June 30, 2022 was 39.4%, higher than the prior year of 34.1% (June 30, 2021) as a result of administrative expenses increasing 17.8% to £101.5m (2021: £86.2m). This increase is due to last year's measure benefitting from the release of a provision and one-off costs borne in the current year relating to corporate activity and upon stripping out such factors, on an underlying basis the ratio improved from 35.9% last year to 35.1% for 2022. This is below its level immediately prior to the pandemic and reflects the benefit of economies of scale of a growing mortgage portfolio, and the realisation of benefits from our modernisation and transformation programme on the Group's efficiency.

Impairment losses for the year to June 30, 2022 were £4.3m, a decrease of 73.6% reported in the year ended June 30, 2021 (£16.1m). This reduced impairment charge principally reflects that the economic consequences of the pandemic have not proved as severe as feared and house-price growth has increased the value of underlying securities.

As a result, cost of risk for the year has fallen to 0.1% from 0.4% in the prior year to June 30, 2021.

The impairment coverage ratio was 1.6% as at June 30, 2022, lower than the prior year (June 30, 2021) of 2.5%. Coverage has fallen due to strong underlying performance of the loan book, plus the impact of one off write offs of legacy accounts which had entered shortfall prior to the Covid-19 pandemic, following a tightening of the Group's write off criteria.

Underlying EBITDA was £306.5m for the year to June 30, 2022 up 12.4% compared with £272.6m in the prior year to June 30, 2021.

Underlying EBITDA margin was 76.9% for the year ended June 30, 2022 compared with 72.7% in the prior year ended June 30, 2021.

Underlying profit before tax<sup>7</sup> increased by 8.7% to £162.7m when compared with £149.7m in the prior year (June 30, 2021).

The Group's highly cash generative business model proved robust, with cash receipts of £1,906.4m for the year to June 30, 2022 compared with £1,687.4m in the prior year to June 30, 2021.

Gross loans and advances to customers have increased by 29.6% to £5,333.6m compared with £4,116.3m as at June 30, 2021. Of the total loan book growth of £1,217.3m, 75% of this occurred in the second half of the year, as the Group accelerated lending activity coming out of the pandemic.

Shareholder funds have increased by 9.9% to £1,030.0m compared with £937.0m at June 30, 2021 which reflects the increase in profits as stated above along with the £48.8m of dividends during the year which includes £29.4m to cash-service the interest on the Midco1 PIK Toggle Notes.

<sup>7</sup> June 30, 2022 excludes £1.2m customers redress provision release, £7.9m costs associated with a strategic review of the business and a £4.5m share-based payments charge whilst June 30, 2021 excluded £8.2m customer redress provision release £1.7m redundancy costs, and £5.9m interest payable relating to the refinance of the 2024 SSN.

## Recent developments

### Trading update

Monthly cash receipts of principal and interest in July 2022 and August 2022 were £179.2m and £193.0m respectively, compared to a monthly average of £158.9m for the year to June 30, 2022.

Facility Headroom was £1.4bn at 31 August 2022 ( June 30, 2022: £1.4bn; June 30, 2021: £1.4bn) and total accessible liquidity was £356.9m at 31 August 2022 (June 30, 2022: £406.9m; June 30, 2021: £453.0m).

In July 2022, the Group announced the issuance of its largest ever RMBS, Together Asset Backed Securitisation 2022 – 1ST1 PLC (TABS 7), raising £494.4m.

In September 2022, the Group refinanced its BABS facility, with an additional £24m of funding secured, extending maturity to March 2027.

Also in September 2022, the Group refinanced its revolving credit facility, increasing the facility size from £71.9m to £138.25m, improving commercial terms and extending maturity to 2026.

In August 2022, we were awarded Investors in People silver accreditation, taking the first step in meeting our objective to achieve external recognition for our investment in our colleagues, 18 months ahead of our plan.

### New originations

Monthly mortgage originations in July 2022 and August 2022, were £303.7m and £303.4m respectively, compared to a monthly average of £226.8m for the year to June 30, 2022.

## Significant factors which may affect results of operations

### Macroeconomic and political uncertainty

The UK's economic performance continues to be greatly impacted by external factors. Generally speaking, the UK economy has been on an upwards trajectory of recovery from the worst impacts of Covid-19. However, more recently, the Russian attack on Ukraine has increased commodity prices, particularly oil and gas, and disrupted trade and business confidence.

Unemployment has recovered to pre-pandemic levels which produced a bounce back in consumer demand. This, coupled with price increases caused by the disruption of global supply chains, has led to escalating inflation. Wages, though rising significantly in nominal terms, have fallen in real terms and the increase in the cost of living for low-income households has become a major issue for policymakers. In response, the Bank of England has progressively raised Base Rate from 0.1% at the beginning of the financial year to 1.25% in June 2022, with further rate rises continuing after the end of the financial year, rising to 1.75% in August 2022.

Whilst the economy has generally proven robust over much of the year to date, the accelerating inflation and its consequences for living standards and interest rates have led to concern among forecasters about the economy's prospects. Furthermore, changes in interest rates have an immediate impact upon the Group's variable rate borrowing costs, and the lag and extent of passing such increases onto our existing and new customers' variable rate loans could result in compression of our Net Interest Margin.

### *What we did in FY22*

In response to macroeconomic factors during the year, the Group:

- Closely monitored financial resources and concluded frequent refreshes of financial projections, stress testing and monitoring of key risk indicators under a range of scenarios. This included monitoring the consequences of the conflict in Ukraine, including its impact on energy, fuel and commodities and the potential affordability impacts for customers;
- Increases in our cost of servicing some of our borrowings were passed on to our customers where appropriate, through increases to variable interest rates.
- We regularly reviewed our product pricing for new customers, and entered into interest rate swaps on certain liabilities to match cash flows of our liabilities to our loan assets;

- Delivered Change and transformation projects to facilitate a responsive business platform;
- Modelled and assessed the impact of reduced customer affordability on the loan book;
- Modelled and assessed the impact of changes in the costs of servicing some of our borrowings and pricing actions and the potential impacts on margin;
- Successfully concluded several refinancing activities and issuances of new funding lines to further diversify the Group's funding resources; and
- Utilised new sources of data to support operational strategies for contacting customers in or approaching financial difficulty.

### Loan assets performance

The performance of our total loan assets depends on our ability to collect each expected loan instalment, including interest and principal payments, on a timely basis. This, in turn, depends in part on the strength of our underwriting process to assess the affordability and sustainability of the loan instalments based upon known factors at the time of origination and to assess the repayment strategy and the marketability and value of the underlying security.

Our underwriting criteria, processes, controls and systems have been developed and refined based upon many years of experience. For each loan application, a detailed assessment is made of the customer circumstances, among other checks, an assessment of the financial position of the customer to ensure that the loan is both affordable and sustainable (as appropriate) along with an assessment of the repayment strategy. In addition, an assessment of the underlying security and its value is undertaken.

The macroeconomic pressures on customer affordability, driven by high inflation and other issues have led us to continually evaluate our affordability approach. Our latest enhancements have adapted our assessments to, amongst other factors, increase anticipated customer expenditure to take into account forecasted inflation over the next 12 months. These changes will keep our approach to lending responsible and ensure our loans are affordable for customers.

## Significant factors which may affect results of operations (continued)

### Property market

Together operates in a number of specialist segments of the UK mortgage market, helping customers who are typically underserved by mainstream banks.

Together has a substantial lending exposure to the residential and commercial property sectors. Any property value falls or adverse changes in the economy may lead to a rising number of defaults or a reduction in the amount recovered in the event of default.

House and property price inflation is expected to decrease from the record levels observed in recent years, to more modest levels in 2022.

The Group lends at prudent LTVs at origination to provide protection from falls in property prices. Average origination LTV was 61.0% for the year to June 30, 2022 compared to 59.8% for the year to June 30, 2021.

Together is a national lender and has a loan portfolio which is diversified across the UK, with less than 20% concentrated in the London region where property prices have tended to fluctuate to a greater extent. Our London portfolio is not focused on 'Prime' central London properties and, with weighted average loan-to-value ratios in line with the average of our portfolio for the rest of the country, we consider this provides a level of mitigation against moderate house price falls in such areas.

### Competition

The competitive landscape contains risks from new entrants, increased competition from incumbent lenders and disruptive products/software solutions potentially affecting lending activities. The effect of this could result in lower lending volumes, higher customer attrition and/or, lower net interest margins.

Competition in the mortgage lending industry can take a number of forms, including interest rates and fee competition, underwriting criteria, convenience and customer service, and marketing and distribution channels.

The risk of competition has been incorporated into the Group's forward planning process and the external market is regularly monitored.

The Group continues to offer a broad product range to underserved segments of the market and benefits from a rich pool of experienced and skilled underwriters. The Group has continued to progress a number of key modernisation and transformation initiatives to

optimise application journeys, improve user experiences for our customers and intermediaries and increase operational efficiency.

The longevity of the Group's trading has resulted in the development of long-term relationships with both intermediaries and individuals providing access to both new and repeat customers. In addition our diverse range of products, flexible approach to underwriting and experience means that we have the ability to attract and retain customers who are not serviced by other lenders, protecting our competitive position. The Group will continue to monitor the external environment and is confident, given this experience, gained over many economic cycles, that it will remain competitive in the segments in which it operates.

Mainstream lenders (including high street banks) continue to focus on their core businesses of fully automated credit decisions which excludes certain customers, property or transaction types.

This has encouraged a number of new entrants, or re-entrants in recent years into the market in the form of non-bank lenders or newly formed challenger banks and has resulted in or may further result in increased competition in certain segments of the market where we operate and in turn result in lower yields.

Uncertain economic times may however reduce the number of new entrants or existing lenders into our chosen markets in which we operate. Lenders who operate in mainstream segments may seek to focus on their core markets and restrict their lending criteria, reducing the number of customers who can access such mainstream products and which may provide increased lending opportunities for specialist lenders like Together.

## Significant factors which may affect results of operations (continued)

### Liquidity and funding

We fund our total loan assets from cash generated by operations, shareholder reserves, the subordinated shareholder funding, senior secured notes, a revolving credit facility, residential mortgage-backed securitisations, commercial mortgage-backed securitisation and through other asset-backed facilities. The volume of loans we are able to originate is limited, in part, by the amount and terms of funding available to us along with the level of our capital reserves.

A key driver of liquidity risk within the Group arises from a number of private securitisation facilities being subject to portfolio covenants and eligibility restrictions including concentration limits and performance measures. Amongst other requirements, such covenants limit the proportion of loans in arrears and on an individual loan basis the level of arrears determine eligibility for such facilities. In certain circumstances assets can be exchanged, repurchased or additional capital can be injected into the facilities to support compliance with facility terms thereby maintaining access to liquidity provided by such facilities. Failure to comply with facility terms or breach of non-curable performance covenants will cause such facilities to go into early amortisation, with removal of undrawn facility headroom and deferral of cash flows to the Senior Borrower Group (as defined in the group structure on page 21). Increasing arrears, as a result of the wider economic downturn, increases the risk that insufficient eligible assets will be available to ensure facilities remain in compliance with covenants, and thus able to provide a source of liquidity and funding for the Group. The Group monitors such covenants and carries a level of cash and eligible assets to support the private securitisation facilities in a stress event in line with set risk appetites.

The Group also benefits from a business model which is ordinarily cash-generative with a high level of redemptions which is a key source of liquidity. Expectations are for continued economic uncertainty which may lead to a reduction in the level of cash inflows. Stress testing undertaken includes the impact of severe haircuts to expected redemption inflows.

The liquidity and funding risks arising from reducing levels of eligible assets and/or the risk of lower levels of cash inflows from redemptions can be mitigated by increasing the amount of liquidity resources held as cash. A key management action to generate net cash inflows is the ability to control levels of new lending. As at June 30, 2022 cash balances remained significantly above risk appetite, at £264.5m (June 30,

2021: £228.6m), of which £64.3m is unrestricted cash (June 30, 2021: £79.9m) as shown in Note 10.

The Group has a strong track record of successful refinancing and raising new facilities, and has continued to increase its bank and investor base during recent transactions ensuring that existing facilities are refinanced sufficiently ahead of their maturity dates to allow for any market disruption. The war in Ukraine and the resultant increases in energy and non energy costs and interest rate rises is causing some market uncertainty and has constrained certain funding markets and / or had a negative impact on commercial terms. Continued future uncertainty or further negative economic data may restrict the ability of the Group to complete further funding transactions, at least in the short term, or may have a further negative impact on commercial terms available.

Some of the Group's funding is subject to financial covenants. Note 2 to the audited financial statements provides further detail on the assessment of the going concern basis of preparation. This includes an assessment of the risks presented to the Group by any potential breaches of lending covenants including potential mitigating actions.

### Interest rate environment

In response to rising inflation, the Bank of England has progressively raised Base Rate, from 0.1% at the beginning of the year to 1.25% in June 2022, rising to 1.75% in August 2022.

An increase in prevailing interest rates increases the cost of servicing some of our borrowings. Although our total loan assets mainly consist of variable rate mortgage loans and we have the right in respect of such loans to increase pricing if our own funding costs increase, our level of arrears and ultimately cash flows may be adversely affected if we increase the pricing of our customers' mortgages in relation to any potential increases in our funding costs.

We have also seen increasing demand for fixed rate products as interest rates trend upwards. The Group raises funding using a mix of fixed and variable funding which provides some natural offset in movements in interest rates on assets and liabilities.

In addition the Group has also undertaken hedging transactions to provide further mitigation against mismatches in fixed and floating rates and undertakes stress analysis on any remaining mismatches.

## Significant factors which may affect results of operations (continued)

### Interest rate environment (continued)

An increase in interest rates can also adversely affect the credit quality of the customers to whom we lend and our loan origination volumes as loans may become less attractive to customers.

The Group maintains strict underwriting criteria which include, where appropriate, stressing affordability under a higher interest rate environment.

### Regulatory considerations

The Group has certain subsidiaries which are authorised and regulated by the FCA in addition to subsidiaries which undertake unregulated lending. We also have to comply with the relevant UK regulations including anti-money laundering regulations, the General Data Protection Regulations and the UK Securitisation Regulation.

Changes in regulation may impact the way in which the Group conducts its business. Failure to comply with regulation could result in fines, reputational damage and potential revocation of regulatory permissions.

The Group takes all regulatory considerations seriously and have compliance, legal and governance functions in place to monitor compliance with these requirements.

Given that we operate in the regulated markets we are at risk of failing to comply with existing regulation and the potential impact of changes in regulation on our activities. From time to time, we may identify, including through our compliance and internal audit functions, regulatory breaches or potential regulatory breaches or other issues related to compliance matters.

The Group continually focuses on improving its customer processes and responding to changes in customer needs. During the year, the regulated division continued to identify ways to improve customer experience and outcomes, including the further development of a framework aimed at ensuring consistency of customer outcomes, which seeks to build upon and enhance existing practices, policies and procedures. The framework has a particular focus on customers in arrears and those with escalating balances.

In addition, during the year a process was undertaken to assess the way that customer rates, and certain charges, are set and reviewed, and consider those that have historically been charged to certain customers. This included engagement with the regulator following their thematic review in some of those areas. This exercise is now complete and actions are in the process of being

implemented. As a result of the process we will take certain actions, such as the application of caps to historic interest rates, which will see redress paid to customers or reductions applied to their account balances.

During the period the Group has progressed with the evaluation of these matters and whilst an element of uncertainty still remains, in particular in relation to the Group's framework and calculations for ensuring consistency of customer outcomes, there is now increased certainty as to the amounts of payments that will be made, compared to the position as at 30 June 2021.

Disclosures in respect of these considerations can be found in Note 19 to the annual statutory consolidated financial statements.

## Significant factors which may affect results of operations (continued)

### Risk factors

This annual report contains statements that are, or may be deemed to be, forward-looking statements. In some cases, these forward-looking statements can be identified by the use of forward-looking terminology, including the words “aims,” “believes,” “estimates,” “anticipates,” “expects,” “intends,” “may,” “will,” “plans,” “predicts,” “assumes,” “shall,” “continue” or “should” or, in each case, their negative or other variations or comparable terminology or by discussions of strategies, plans, objectives, targets, goals, future events or intentions.

Many factors may cause our results of operations, financial condition, liquidity and the development of the industries in which we operate to differ materially from those expressed or implied by the forward-looking statements contained in this report. These factors include among others:

- the impact of economic conditions on our results of operations and financial condition;
- the impact of the United Kingdom’s exit from the European Union;
- the continuing impact of Covid-19, or any mutation of Covid-19, and the impact of the Covid-19 vaccines and medications, on the global and UK economy and resultant impact on our liquidity position, capital position, funding capability, capital markets, operational risk profile, portfolio credit risk profile, reputation, results of operations and financial condition;
- the impact of the war in Ukraine on the UK economy;
- the impact of a downturn in the property market;
- our ability to accurately identify the credit profile and behaviours of our customers;
- our ability to accurately value properties;
- our ability to act proactively to minimise the risk of repossession and potential losses in the event of a repossession;
- our ability to detect and prevent fraud during and after the loan underwriting process;
- the impact of the changing financial circumstances of our customers including rising inflation and interest rates and the cost of living pressures;
- the impact of rising unemployment, higher cost of living, higher interest rates or a reduced ability of our customers to service their mortgage loans;
- the impact of shortages of labour or materials affecting individual or business income
- our relationships with mortgage intermediaries, professional networks and other distribution channels;
- the impact of competition;
- legislative, taxation and regulatory changes affecting our ability to operate or the profit generated from our activities;
- the effectiveness of our compliance, Enterprise Risk Management Framework and internal audit functions;
- failure to comply with current, past or future regulatory rules or guidance, or the retrospective interpretation thereof, or to treat customers fairly;
- failure to identify and offer the appropriate treatment to vulnerable customers;
- our exposure to the cost of redress, the cost of delivering redress, potential regulatory sanctions and fines;
- the impact of rising interest rates and deterioration in economic conditions and the impact on our ability to obtain financing or obtain financing at competitive rates;
- changes to the ways in which the United Kingdom regulates the loan industry and other regulatory changes;
- the impact and cost associated with greater prudential regulation;
- changes or uncertainty in respect of LIBOR or SONIA that may affect our sources of funding;
- the impact of new initiatives by the UK Government that may affect our business;
- the impact, costs and settlements associated with dealing with claims made from claims management companies and/or claimant law firms;
- the impact of litigation;

## Significant factors which may affect results of operations (continued)

### Risk factors (continued)

- loss of a material number of employees being available due to a health crisis including Covid-19 and changes in working practices following Covid-19;
- our ability to retain our senior management and our underwriters, account executives, sales personnel, client facing employees and key individuals;
- failure to operate effectively and in line with regulations and legal requirements while working remotely;
- failure to operate a safe workplace in breach of health and safety regulations (including in response to any epidemic or pandemic);
- interruption or loss of our information processing systems or third party systems we use or failure to maintain secure information systems (including as a result of cyber-attacks);
- technological changes and failure to adequately anticipate or respond to these changes;
- the accuracy of our systems, data and models to correctly report our financial condition and forecasts;
- our substantial debt obligations and our ability to operate within financial covenants;
- access to debt markets and our ability to refinance our debt and raise new debt at acceptable cost;
- imbalances in maturity between our total loan assets and our sources of funds affecting the capacity to expand our business;
- our ability to benefit from special corporation tax regimes for securitisation companies;
- our ability to execute or modernisation and transformation priorities;
- the potential for conflicting interests between the shareholder and third-party funding providers;
- exclusion of US GAAP financial information; and
- changes in accounting standards.

These risks are not exhaustive. Other sections of this report describe additional factors that could adversely affect our results of operations, financial condition,

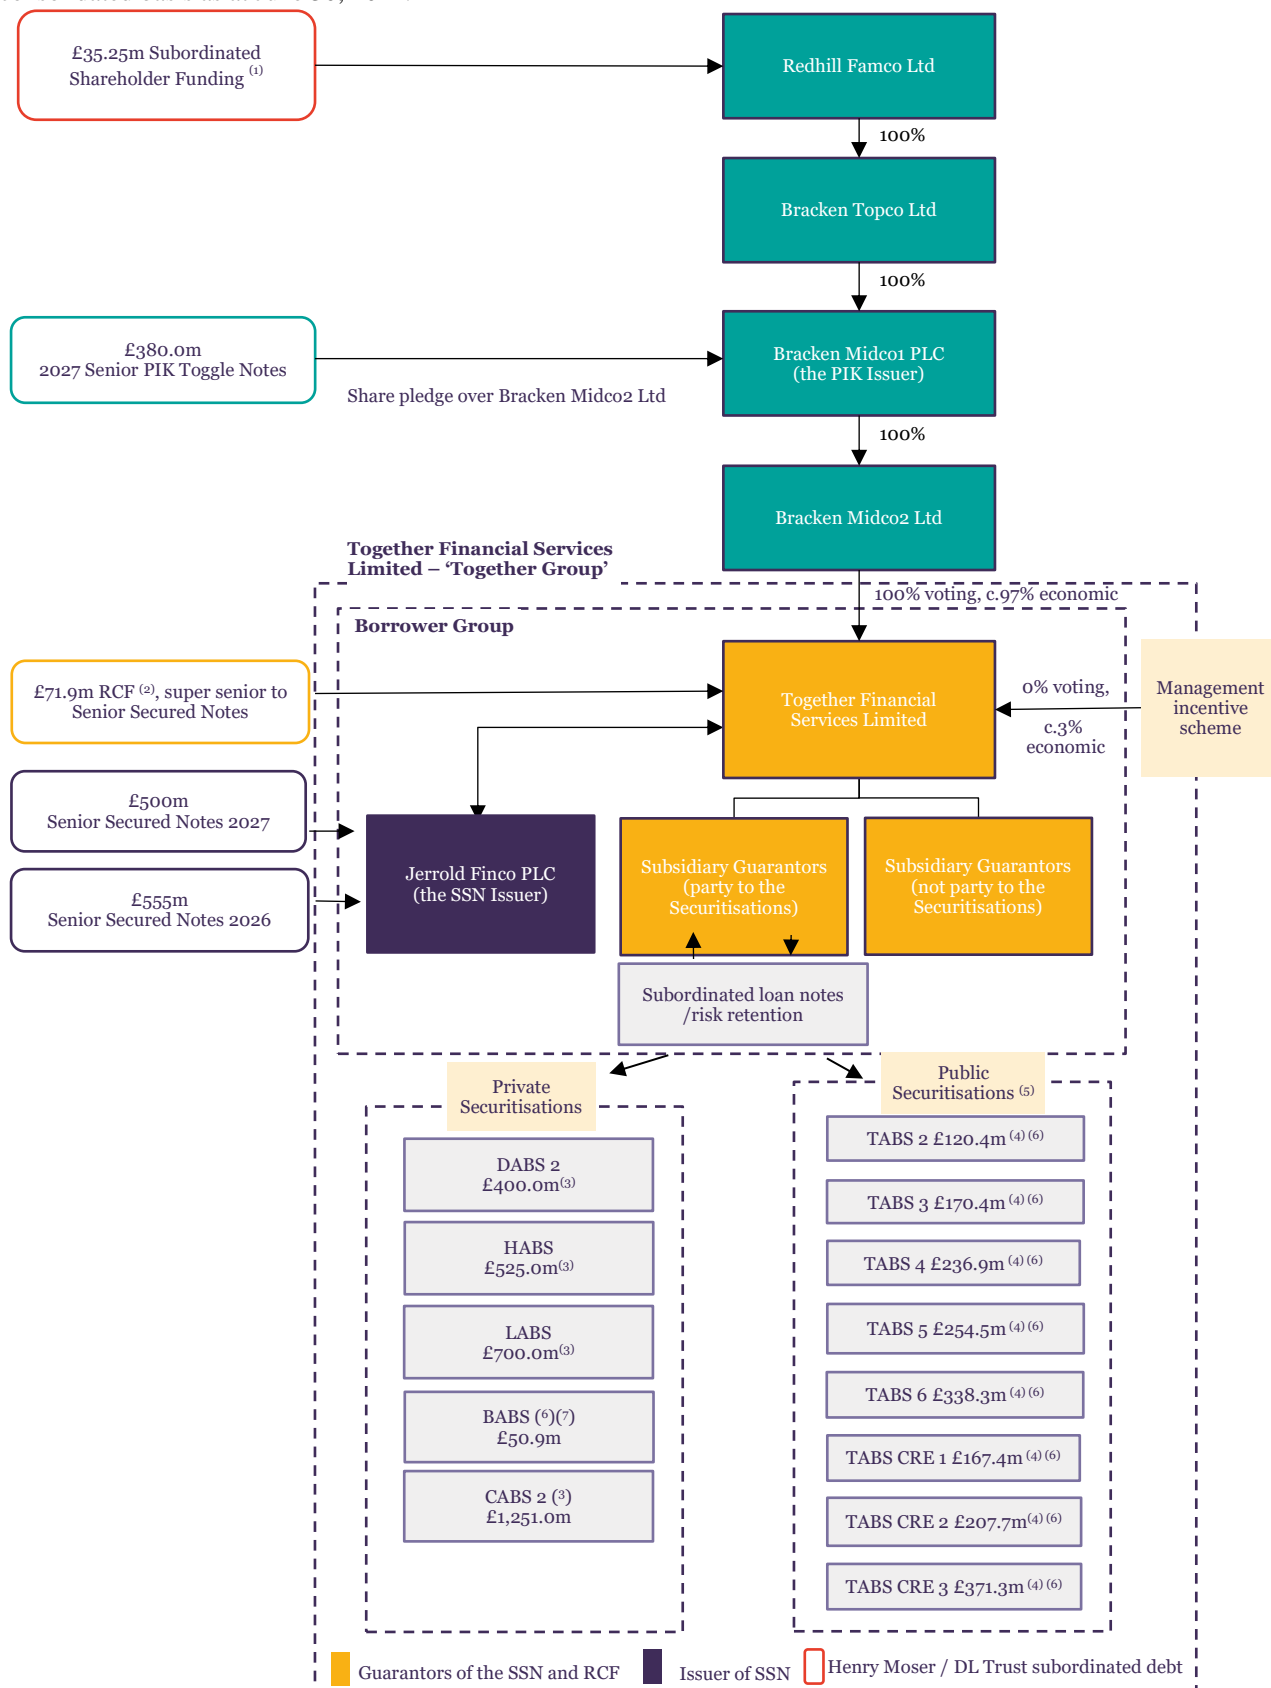

liquidity and the development of the industries in which we operate. New risks can emerge from time to time, and it is not possible for us to predict all such risks, nor can we assess the impact of all such risks on our business or the extent to which any risks, or combination of risks and other factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, you should not rely on forward-looking statements as a prediction of actual results.

Any forward-looking statements are only made as of the date of this annual report, and we do not intend, and do not assume any obligation, to update forward-looking statements set forth in this report. You should interpret all subsequent written or oral forward-looking statements attributable to us or to persons acting on our behalf as being qualified by the cautionary statements in this annual report. As a result, you should not place undue reliance on these forward-looking statements.

# Summary corporate and financing structure

The diagram below provides a simplified overview of our corporate and financing structure on a consolidated basis as at June 30, 2022.

The diagram does not include all entities in our Group nor does it show all liabilities in our Group.
